#### Oceans of Blood

The war proceeds and Europe bleeds, she's reeling and exhausted; kings, I feel, find martial zeal already badly frosted. They look around, and on the ground they see a million bodies, and war's a thing no more to sing, or toast in foaming toddies. The dullest prince must shrink and wince when fairly he considers the woe and pain, the heaps of slain, the fatherless, the widders. And in his dreams he must, meseems, behold the specters gory of those who gave all for a grave on some red "field of glory." I'd hate, by jing, to be a king, a sultan, czar kaiser, and see the ghosts of butchered hosts along the Aisne and Yser. They may exclaim, Selected by Chileans as Best in the "We're not to blame, we're meek as any kitten," but they must bear the curse and wear, the shame when all is written. No use for prince his words to mince, John E. Lathrop, Former Correspondand say, "It's not my doing" until he croaks the specter folks his steps will be pursuing. And when he lands on Jordan's sands, the ghosts will gather round him, the men he slew, an awful crew, to startle and confound him. WALT MASON.

a hard-fought, cleanly played game, the Brigade Athletic Club defeated the strong Seventh Semester Business High School basket ball team Friday evening at Friendship House gymnasium, 5th street and Virginia avenue southeast, by a score of 41 to 27. In spite of prejudices, they always con ceded Washington's value as a munici ceded Washington's value as a municipal product, and admitted that it is the only city in the world which was constructed on a comprehensive plan which will be suitable so far as its structure is concerned permanently.

"As to the United States, in every part, in every state, in every city, I note a growing pride in the National Capital. It is my opinion, after having lived here nearly ten years, and having made more or less careful studies of most of the cities of the country during the past years, that the people here do not appreciate what they have. "However, the further execution of the city will be carried out. The people of the country are moved by this growing pride to support measures looking toward making this city par excellence of the world, which it now is, but which it will also be even after other cities have sought to rival it by elaborate betterments."

The national department of public works, known as Obras Publicas, sent experts to study the exhibition, and obtain ideas for the transformation of Santiago, in which every Chilean has immense pride. #### Restoration Talk Called Foolish. "There is much foolish talk to the ef

No one today can produce the same significant work as was done by the geniuses of the middle age. Art is more than skill, it demands inspiration. This inspiration that prompted the medieval artist cannot be reproduced. Some of these talented workmen labored for 3 cents a day. What would the work cost today? A fabulous sum."

Look Alive.

If you're selling shredded cheese, look alive; thus your customers you'll please, look alive; even though your trade be punk, so you scarcely make a plunk, spring a cheerful line of bunk—look alive! When a man comes to your store, look alive; thus you'll sell a whole lot more, look alive; for the man who'd spend a bone, has some troubles of his own, and you bore him with your groan-look alive. Let your tale of woe be brief, look alive; deal in anything but grief, look alive; if you are inclined to roar, or to sulk about your store, haste to yourself the door-look alive! If you are a weary clerk, look alive; poorly paid for heavy work, look alive; blithely work and watch your chance (you will have it!) to advance; otherwise your name is Pance-look alive! Act as though you liked your job-look alive! No one profits by a sob-look alive! For the sore disgruntled lad, with a face morose and sad, always finds the sledding bad-look alive! If alive, march with the crowdlook alive! If you're dead, go get a shroud-look alive! All the cheerful boys are wise, and the ones with weeping eyes hardly ever win a prize-look alive!
